1. Applicant's After-Final amendment filed on June 1, 2004 has been entered.

Claims 11 and 12 have been amended. No claims have been added or cancelled.

Claims 1, 2, 4-6 and 11-31 are still pending in this application, with claims 1, 11, 12 and 29 being independent.

3. The following is an examiner's statement of reasons for allowance:

A cavity extends at least along a part of the length, such cavity being for receiving the light source. The cavity is formed in part by the first material and extends to two or more portions of the outer surface of the elongated member. The two or more portions of the outer surface are separated from one another by a separating portion of the outer surface that includes the second material. The elongated member is formed as a singled piece and the light source provides non-interrupted continuous illumination along at least a major length.
